

BASIC FIELD GUIDE – Testing Horse For Pain

For more detailed information go to www.QuantumHorseHealth.com

BL10 – Pain in this area usually relates to a problem in the opposite hind quarter about 90% of the time.
Use **Glutathione Patch at Position #1** and **IceWave Patches at Position #2** (see Basic Patching Guide)

Neck Area – Palpate along neck vertebrae from the poll to the base of neck.
If the horse has a sore neck, the corners of the mouth will twitch severely while testing.
Use **Glutathione Patch at Position #1** and **IceWave Patch at Position #2** (see Basic Patching Guide)

Collar Groove
The top area relates to Pain in the Shoulder
The middle area relates to Knee Pain
The bottom area relates to Lower Leg Pain
(sensitivity in the middle and bottom areas of the collar groove relates to the opposite front leg about 80% of the time)
Use **Glutathione Patch at Position #1** and **IceWave at Position #3** (see Basic Patching Guide)

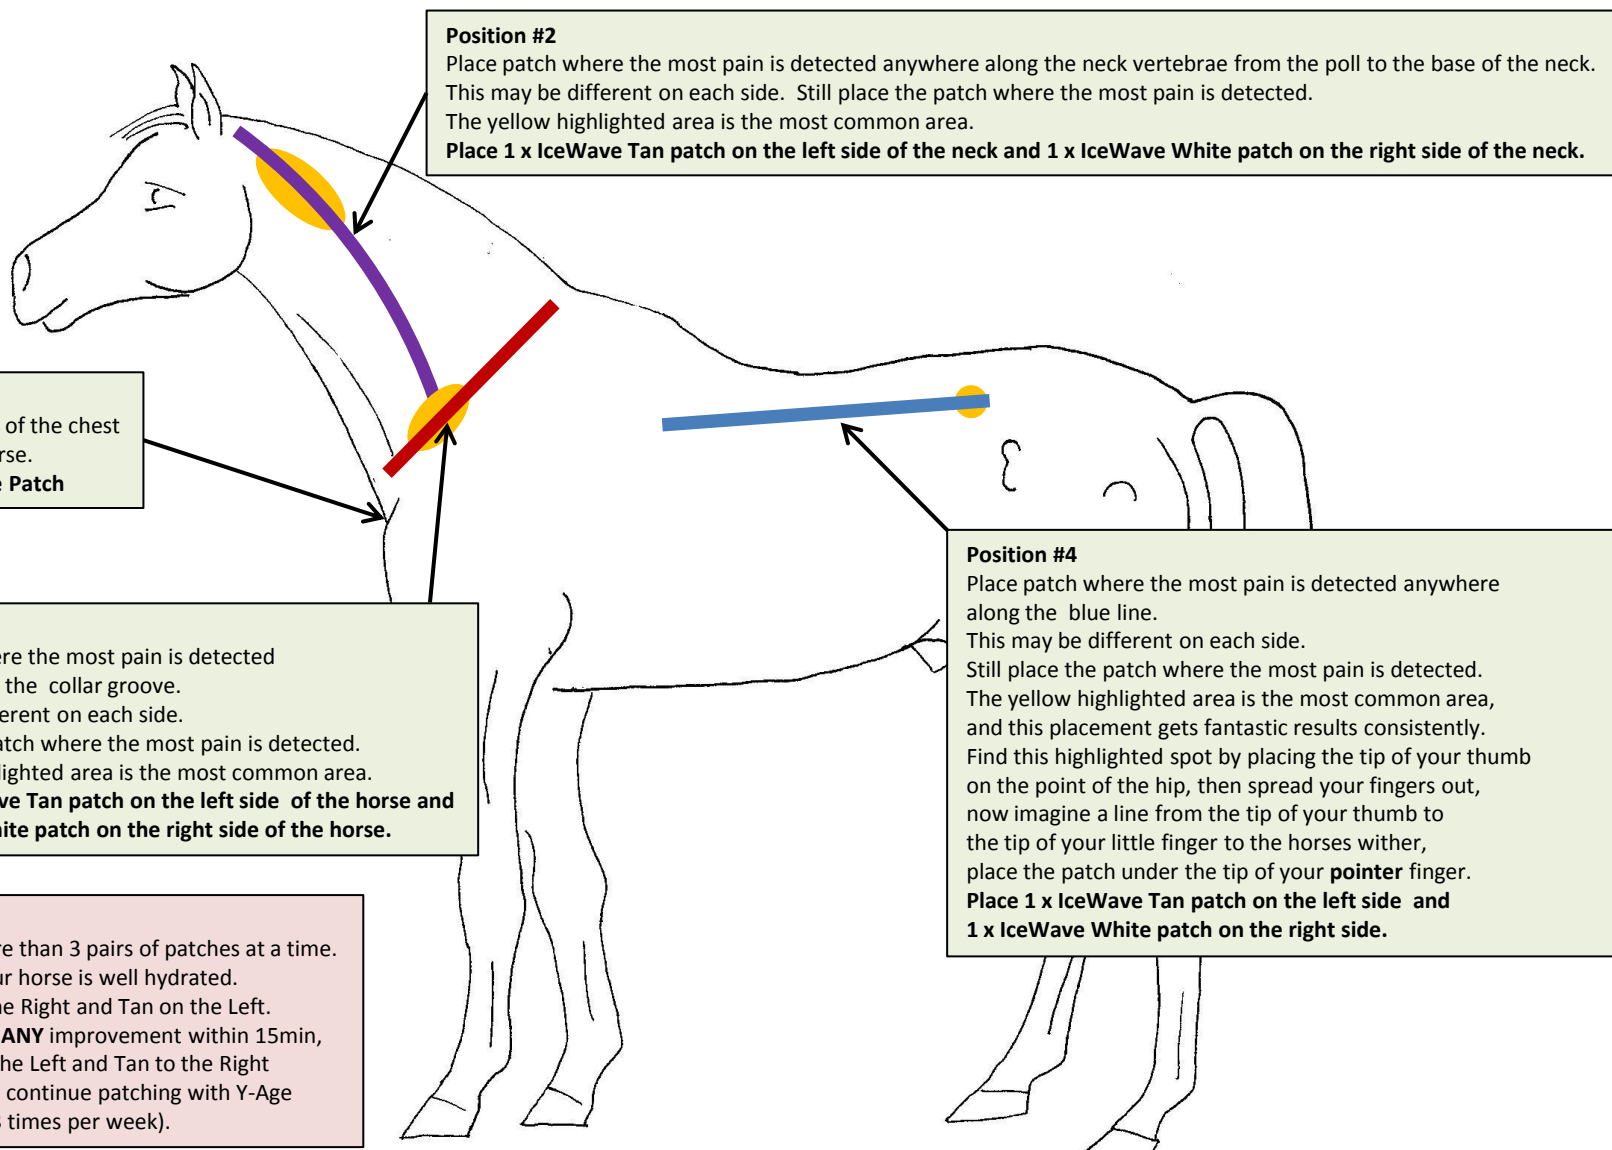

BL 23
Pain in this area sometimes relates to bone problems.
Use **Glutathione Patch at Position #1** and **IceWave Patch at Position #4** (see Basic Patching Guide)

BL 13, 14, 15
Pain in this area sometimes relates to the
Inside front leg up to knee
or
The front of the front limb
or
The chest (heart or lungs)
Use **Glutathione Patch at Position #1** and **IceWave Patch at Position #4** (see Basic Patching Guide)

Pain in this area sometimes relates to Muscle or Tendon pain.
Use **Glutathione Patch at Position #1** and **IceWave Patch at Position #4** (see Basic Patching Guide)

BASIC PATCHING GUIDE - Patching Horse For Pain

For more detailed information go to www.QuantumHorseHealth.com

Position #1

Located at the centre of the chest at the front of the horse.

Place 1 x Glutathione Patch

Position #3

Place patch where the most pain is detected anywhere along the collar groove.

This may be different on each side.

Still place the patch where the most pain is detected.

The yellow highlighted area is the most common area.

Place 1 x IceWave Tan patch on the left side of the horse and 1 x IceWave White patch on the right side of the horse.

Position #2

Place patch where the most pain is detected anywhere along the neck vertebrae from the poll to the base of the neck.

This may be different on each side. Still place the patch where the most pain is detected.

The yellow highlighted area is the most common area.

Place 1 x IceWave Tan patch on the left side of the neck and 1 x IceWave White patch on the right side of the neck.

Position #4

Place patch where the most pain is detected anywhere along the blue line.

This may be different on each side.

Still place the patch where the most pain is detected.

The yellow highlighted area is the most common area, and this placement gets fantastic results consistently.

Find this highlighted spot by placing the tip of your thumb on the point of the hip, then spread your fingers out, now imagine a line from the tip of your thumb to the tip of your little finger to the horses wither, place the patch under the tip of your **pointer** finger.

Place 1 x IceWave Tan patch on the left side and 1 x IceWave White patch on the right side.

Patching Guidelines

- 1) DO Not use more than 3 pairs of patches at a time.
- 2) Be sure that your horse is well hydrated.
- 3) Use White on the Right and Tan on the Left.
- 4) If you don't see **ANY** improvement within 15min, swap White to the Left and Tan to the Right
- 5) For best results, continue patching with Y-Age at Position #1 (3 times per week).
